

放射能が心配で・・・

福島原発から 80 キロ圏内にある夫の実家から送られてくる野菜。

高齢の義母が腰を曲げながら孫の為に一生懸命に作ってくれる。

原発事故後、娘は絶対に食べない。

また玄関で枯れていくのだろう。

お義母さんごめんね。

We are worried About the Radiation...

My elderly mother-in-law sends us vegetables from her house, which is within the 80 kilometer radius of the Fukushima nuclear power plant.

She spends hours stooping and bending to grow them for her granddaughter.

But, ever since the accident at the nuclear power plant, my daughter refuses to eat them. They' ll probably just go bad on the porch again.

Sorry mom.
